KIDSMARTER / WHOLE-SHEET PRINT & PLAY

Double the Snack Set

Drawing version: no food or loose counters needed.

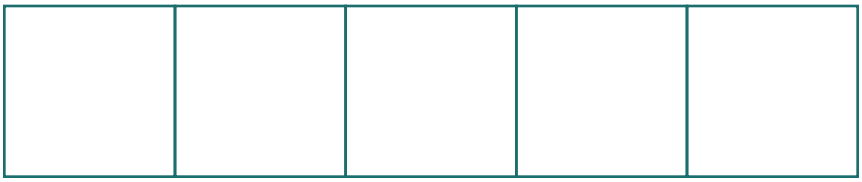

Keep this page whole. Draw 1-5 marks in the first set, then the SAME number in the matching set. Point to partners to check. Count both sets together. In the bottom frame draw that same combined total ONCE more as a record, not an extra group to add.

1. First set: draw 1-5 marks

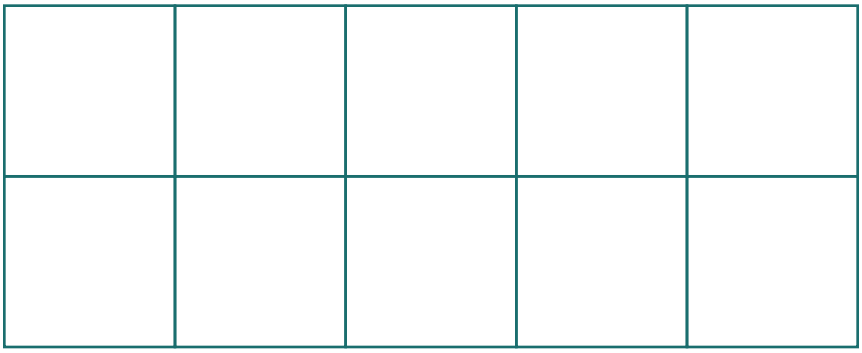

Leave unused boxes empty. One mark in each used box.

2. Matching set: draw the SAME number

Leave unused boxes empty. One mark in each used box.

3. ALL TOGETHER: record the total (up to 10)

The bottom picture shows the SAME total, not more objects.

Start with 2 and 2: there are 4 altogether. Draw 4 below, not 8. Try one double per fresh sheet. An adult can draw while a child points or counts. Stop if the paper or drawing materials are mouthed.
