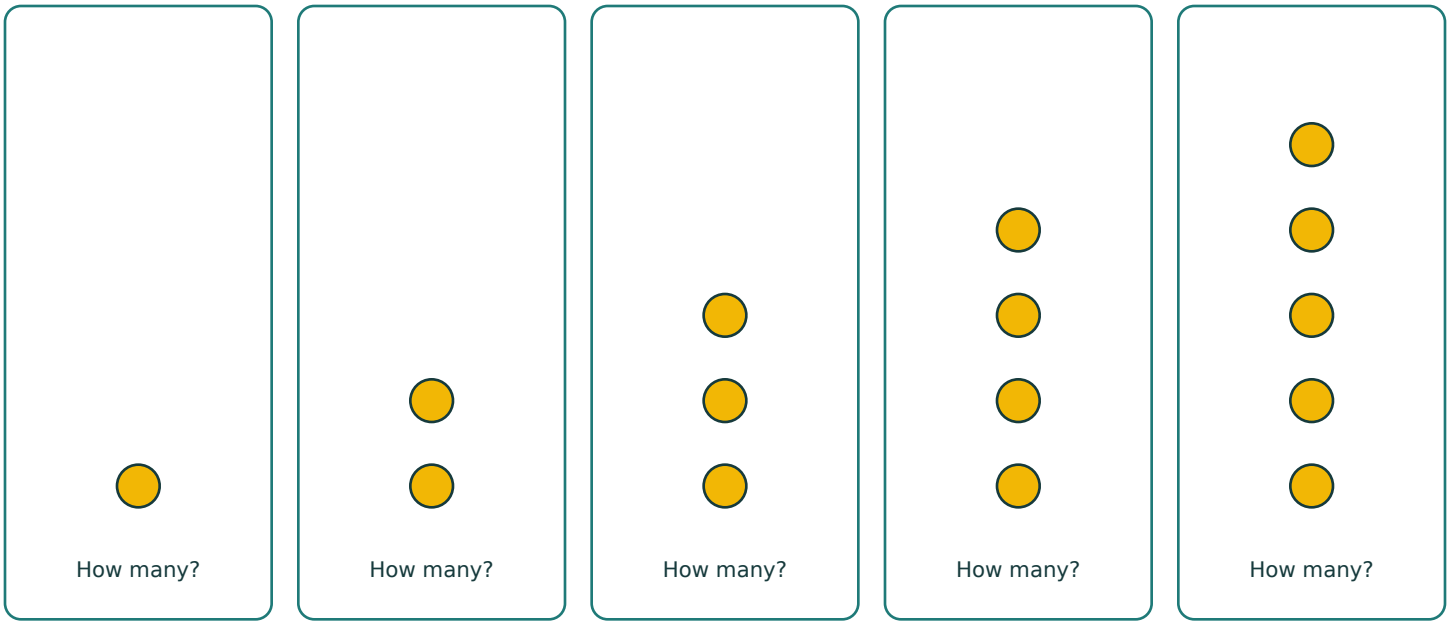
# Quick Look: How Many Without Counting?

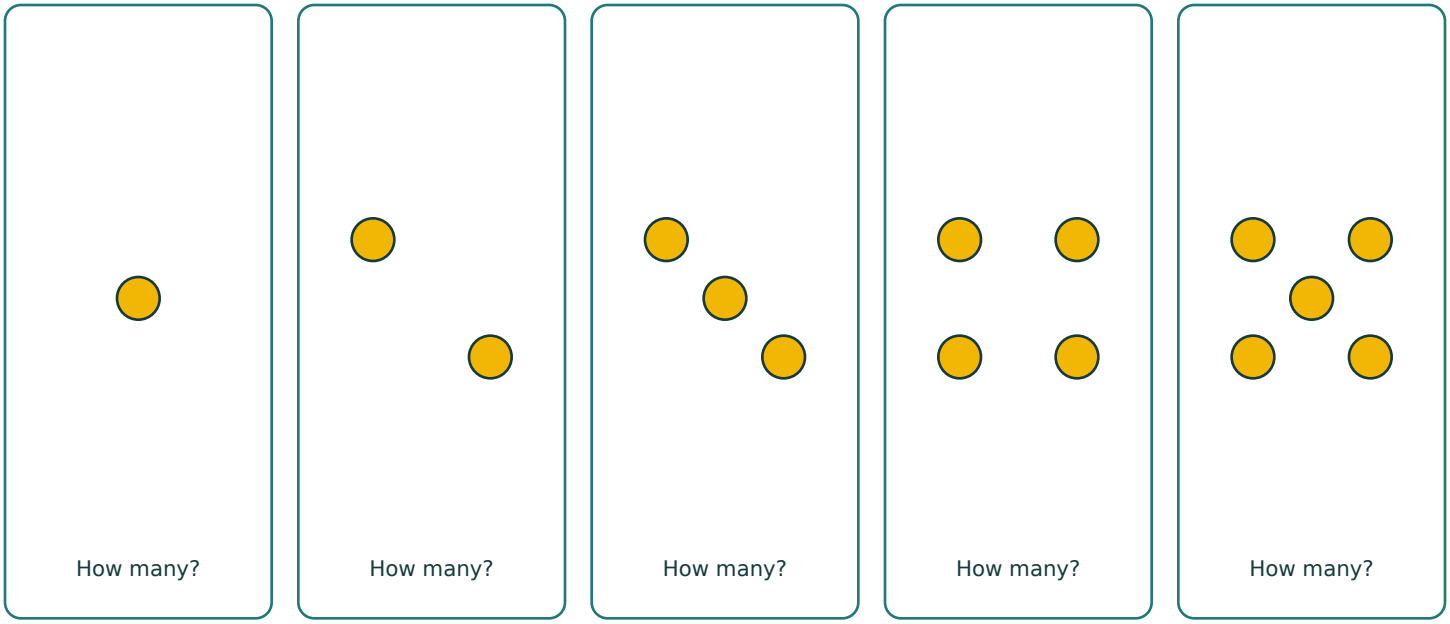
Ages 4–5 | Print at actual size · US Letter · cut pieces with adult help

Parent guide: Show a card for about two seconds, cover it, and ask how many. Then uncover and check by counting. Begin with 2 or 3. Identical dots help children see the group.

### Row 1: dots in a line



### Row 2: the same amounts in a clustered, dice-like pattern



On another round, flip a card and ask for a finger show before naming the number. Recount together after the peek. Cut the cards apart if you want a flash-card pile.
